## About me

As a full-stack designer, I solve dynamic problems by creating efficient design systems, allowing for rapid iterations and prototyping. I oversee designs through completion, providing HTML/CSS and direction to development teams.

## Applications

- 🎨 Figma
- 🔗 Git
- 🖱️ Illustrator
- 📷 Photoshop
- 🎬 After Effects
- 🌀 Blender
- 🔧 Visual Studio Code

## Skills

- Product Design
- UX/UI Design
- Design Systems
- HTML / CSS
- Animation
- Creative Direction
- Realistic 3D Modeling
- Prototyping
- Branding

## Experience

### Lead UI/UX Designer

#### Soul Refiner

February 2019 – Present

- Designed responsive progressive web application
- Conducted user research, prototyping, and user testing, including a/b
- Designed all user interfaces and provided HTML and CSS for development
- Created all visual elements, including SVGs, 3D renderings, and photos
- Managed content formatting, including typesetting and layout of all interactive study guide lessons, and responsive previews for video episodes
- Created custom SVG components including graphs, charts, and animated controls that dynamically respond to a user's data
- Created an efficient design system for use by both design and development teams
- Designed and provided HTML/CSS for all platform and marketing email templates

### Lead Graphic Designer

#### KingdomWorks Studios

February 2019 – Present

- Redesigned ConquerSeries.com and KingdomWorks.com marketing and e-commerce websites
- Managed remote developers to implement all site changes
- Designed logos for all new series: Warpath, Stronger Together, Legacy, and Happily Even After
- Created poster and web banner artwork for all series and modules
- Provided 3D previsualization, camera planning, and lighting design for film shoots

### Owner & Designer

#### Brumby Visuals

2013 – Present

- Partnered with numerous brands in the natural food and beverage industry to art-direct and design new product lines, ad campaigns, and both print and digital marketing collateral
- Print work includes: packaging, in-store displays, out-of-home campaigns, and tradeshow
- Digital work includes: banner-ads, social media, email marketing, e-commerce sites, 3D product rendering, and product photography
